is great Russian. Subject has impression father may be member Soviet elite but Tuganov never identified his occupation and never spoke of him. Brother is presently in USSR. Subject considers Tuganov very intelligent and states he graduated from University in Moscow where he specialized in foreign languages.

B. Subject issued Tuganov protest literature, including Communist Party, poems by Shostakovich, books by Ukrainian nationalist Mykhailo Semenko and Mykhailo, and Nikolai's Russian Russian 1904. Tuganov readily accepted books and was disappointed to find only first part of Communist Party was included in volume he given. Wife also read books and Mykhailo's husband's feelings re protest literature. Tuganov also something of espionage buff (as is Subject) and was greatly interested in discussing particularly. Abel, and other names with him. For whatever it worth, Subject believes Tuganov considers his friend whom he can trust and that Tuganov is genuinely against Soviet regime, Tuganov is member Communist.

E. In Fall 1968 Subject and Tuganov visited Port Said together and were seen there by other Soviets. Subsequently Tuganov was queried about Subject and his trip (presumably by SA officer) but told Subject later that he had unfortunately explained contact. Subject thinks believe this true alone Tuganov was permitted second tour Egypt. Interestingly, Tuganov also confided that Subject had been dismissed at party meeting.

F. Tuganov described as five feet eleven inches, very slim, dark blond hair combed straight back, blue eyes, prominent cheek bones, erect posture, wears glasses. Estimated age 36. Wife (whose name Subject believes is Miranda) estimated age 23. Five feet five inches, brown, attractive figure, light red hair, which Subject believes possibly dyed, and worn shoulder length, pretty face, grayish-green eyes. Subject describes her as having refined look, but also admitted that she came from working-class background.

G. Only Tuganov haunt which Subject aware of is Bay Cafe, where he has seen him twice. Cafe located on corner Washington and 26 July Streets near to Al American Restaurant. Subject has seen Tuganov and wife on streets downtown Cairo occasionally when they obviously shopping.

3. Only lead with possible future source Tuganov is Nikola (LNU), a Greek who gives English lessons to Soviets although his speaking knowledge Russian is only adequate. He met Tuganov with Subject on one occasion at or outside Bay Cafe/Al American Restaurant. Nikola has expressed dislike of Soviets to Subject, and Subject believes he is their enemy out of financial necessity. Nikola had previously worked number of years as English-language tutor for Soviets, but reason for his loss in his employment by them unknown. He long-time resident Egypt, estimated age 56. He frequents Al-American Restaurant and could probably be contacted there.

4. Subject did not bring up any of Soviets cited Ref B. He stated that he had purposely not sought out Soviets after his return to Cairo from the United States in Summer 1968 because he had heard that EIR Government had threatened to expel all seven American students and he wished avoid trouble.

5. Details above incomplete, but as noted Ref A Subject has embarrassing incapacity to remember names and other specifics. Coupled with his loquacity and his tendency to explain events concerning himself in espionage/security context, he difficult to debrief. Would also note that he usually slow, and he himself admits that he would never make the grade if he were studying medicine in American institution. Subject's notes, however, are primarily patriotic and only request he note in

very low key was help in getting on military aircraft (which was discouraged) should he decide to go to Philippines to continue studies. Subject's source of income is very modest but adequate monthly bank draft from widowed mother who resides Detroit.

6. View Subject's high interest in Ukraine nationalism and Ukraine protest literature and his feeling that Tuganov because he half Ukraine also expressed considerable interest in these matters, we suggest Headquarters may wish to consider using the principals and contacts of project ANTONOVICH in following this up.

7. Subsequent to the drafting of foregoing, Subject left telephone message for Consular Officer 13 March saying he denied permission return HAZ and was leaving Greece. He did not indicate his destination.
